

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Stream : Flatrock River

Applicant : Nugent Sand Company
Robert Holt
1833 River Road
Louisville, KY 40206-1002

Description : A project will consist of the removal of the top layer of overburden which will be kept on-site for reclamation purposes or sold as topsoil. The sand and gravel will be removed by the use of a hydraulic suction dredge once water level has been reached. The material will be processed either on-site or conveyed to our existing plant at another nearby location. The material will be washed and sized for retail sale. The removal of overburden is estimated to be around 6'-10' thick, which would result in about 2,000,000 cubic yards of material. At least 40' of sand and gravel will be available which would result in just over 10,000,000 cubic yards of material. The area available for mining will be 148 acres +/- . Details of the project are contained in information and plans received at the Division of Water on August 25 2006.

4515 Eagle Creek Parkway
Suite 312
Indianapolis, IN 46254-4375

Description : Proposed construction of the Crittenden Creek Equestrian Trail will consist of stabilizing about 25' of the creek banks and the gravel bottom creek bed. The project will include a gradual grade 25' in length on both sides with a grade not to exceed 2:1. The crossing will be hardened on each side of the creek with a layer of geotech fabric and stone used to stabilize the ground approaching the creek. The stone and fabric will be keyed into the creekbed at its base and will conform to the existing bank at the project limits. No heavy equipment will be used to construct the crossing. Installation of French drains along the base of the adjacent elevated area railbed will facilitate drainage into the creek under and away from the equestrian trail and creek crossing. Details of the project are contained in information and plans received at the Division of Water on August 25 2006.
